

# Fender Mender Certifications and Recommendations

**Certified**  
Aluminum Repair Capable

This Collision Repair Business is Certified by Assured Performance Collision Care and officially Recognized by Ford as being technically capable of repairing all Ford vehicles manufactured with Aluminum, High Strength Steel, and other metal or Alloy.

This Collision Repair Provider has met manufacturer specifications, requirements, and possesses the proper tools, equipment, training and facility modifications for the repair and refinishing of vehicles manufactured with Aluminum, High Strength Steel, and other metal or Alloy. These certification requirements are essential to helping ensure the fit, finish, durability, value and safety of the vehicle.

By meeting and maintaining these requirements and becoming Assured Performance Certified, this Repair Provider is an active participant in the Ford National Body Shop Network and other Auto Manufacturer Certification-Recognition programs. NOTE: Proof of compliance for the specifically designated time-frame is on record with Assured Performance Collision Care, Inc, a non-profit consumer advocacy organization, and current compliance is illustrated maintained online at: [www.AdvancedRepairCapable.com](http://www.AdvancedRepairCapable.com).

Body Shop Referral List

We have several body shops we can highly recommend. Each of our recommended body shops offer a lifetime workmanship and paint warranty. In California you have the right to select the body shop of your choice, even when insurance is paying. Our recommended body shops are always willing to guide you through the collision repair process. Please give them a call so they can help you get started.

Based on your area and vehicle make we recommend the following shops:

**Encinitas**

**Acura · Audi · Buick · Cadillac · GMC · Honda · Mercedes-Benz**
